**Single Use License:** Pay by the course. Teach it when you need it.

Each Single Use License allows you to teach one course to one person. Buy the number of licenses you need; get the Participant Guides free. The cost of a Single Use License depends on the course and the number of licenses purchased. License cost drops when you order more seats and ranges from \$39 to less than \$20 US per student per day.

**Annual License:** Unlimited teaching for a single fee.

An Annual Course License allows greater control. You can teach an unlimited number of persons over a 12 month period. We incorporate your brand into the materials, and you get a soft copy of the Participant Guide so that you can print the books as needed and to your specifications. Buy an Annual License when training more than 125 persons in a year.

**Participant Guide**

A Participant Guide is a book written specifically for its corresponding course. A complimentary Guide is provided with each Single Use License. Guides are professionally bound with 24lb standard white paper, double sided printing in B&W, coil binding, clear plastic cover, and blue or black back cover. Color printing, tabs and other options are available. There is no charge for shipping to most locations in the continental USA.
