## About CVR/IT

### Training - Consulting - Staffing

Grow the power of effective Project, Program and Portfolio Management in Your Enterprise. Our curriculum will help you make the most of every project dollar you spend.

**Project Portfolio Management** - Your executives and managers will discover how to optimize the linkage between their domain (Business Strategy) and the world of projects. Object: Ensure that projects deliver intended Business Value and bring the management team to their stated objectives.

**Project Management** - Learn how to use the concepts, tools and techniques that drive projects to deliver Business Value. Many of our courses go far beyond what is typically taught today. Even highly experience project managers will find them extremely worthwhile.

**Leadership Training** - Energize people at all levels. Help them find the Leader Within. Show them how to fully contribute to the goals of the organization.

There is real power in the Project Management disciplines. Tap into it now. Bring Enterprise Training to your facility and get the most out of every project dollar you spend!

## A Hands-On Experience

The Hallmark of our training program is that every course includes numerous exercises that give students an opportunity to actually use what they've just learned in class. It is the doing, not just the lecture, that creates real learning. And our material always goes to the heart of the matter, as the following quote from a participant suggests:

"We are implementing PPM in our Company and all the concepts apply 100% and it is very useful for us. Thanks"
