FOR IMMEDIATE RELEASE

**CVR/IT Consulting LLC announces the release of a new Board Game: Project SN-AFU**

The company is releasing this game under a Creative Commons BY-NC-SA 4.0 license.

Raleigh, NC March 1, 2016 – Available immediately, [CVR/IT Consulting LLC](#) announces a new board game intended for individuals with project experience. The company is distributing the game under a Creative Commons BY-NC-SA 4.0 license. This license allows anyone to download, use, modify, and share the game for free, subject to some limitations. Full details on the license are available at [creativecommons.org](#)

- **The Core Game** – Project SN-AFU provides entertainment by giving players the opportunity to make non-politically correct comments about business projects and the people and circumstances surrounding them. Players may also create difficulties for one another in ways that would generally be considered contrary to standard project practice and ethics. Card play drives action on the game board.
- **Expansion Packs** – Expansion Packs add to the game by providing additional cards. In this initial release of the game there are two Expansion Packs available:
  - **NSFW Expansion Pack 1:** 60 cards that most people would consider Not Safe for Work
  - **Certifiable PM Expansion Pack 1:** 70 cards that twist and distort terminology and concepts that most project professionals would understand.

Full information about this new game and access to the free download are available immediately on the game web site: [www.projectsnafu.com](#)
